{comments on}If you are opposed to deer sharp-shooters and all other trap-and-kill measures in our neighborhood, your action is needed NOW:

1. Stop feeding deer in the neighborhood. This is a no-cost, long-term solution to reducing the population. Additional food intake increases reproductive rates and promotes migration from their natural habitat.
2. Vote NO on NWACA ballot. Do not support reducing the deer population by lethal methods. Killing or trapping promotes higher birth rates in the surviving population and must be ongoing.
3. [Contact Austin City Council members](#) . Voice your opposition to deer sharp-shooters and all other trap-and-kill measures in our neighborhood.
4. Reach out to neighbors, organizations, newspapers and other publications. Make your opposition to urban deer killing known.
5. Register on this website. Receive important updates regarding this issue.

Don't fund deer killing with your tax \$\$\$!
